EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Bernard Codd on 8/10/2007.

The application has been amended as follows:

In the claims

Please cancel claims 3-6, 9-11. These claims are drawn to non-elected species.

Please cancel claim 18. It is a duplicate of claim 1.

Please cancel claim 19. It is drawn to a non-elected invention.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The closest prior arts of record are Hiroi (JP 11-307124) and Koyannagi (US 6580026). Hiroi discloses that the spacer particles (applicant's distance defining

members) can be a fiber particle, a spherical particle, a scale-like particle and can be made of rigid plastic particles, such as ceramics, alumina, glass, a divinylbenzene, or polymethylmethacrylate [0025]. Koyannagi teaches that insulating particles (applicant's distance defining members) are made of resins, organic, inorganic composites, metal oxides, ceramics and the like (13:50-60). Prior art does not disclose, teach, nor suggest that the distance defining members include wires made of metal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
